

Wired + Wireless Connectivity

Internet Pricing for 2023

State-of-the-Art Technology

The Javits Center is equipped with some of the most advanced data center and digital networking technology of any event venue in the United States.

To deliver and support customer-focused technology solutions, the Javits Center has a dedicated team of certified IT support professionals specialized in the events industry.

Our Network Includes the Big SIX:

- **High-Speed Internet Access.** Delivered by two separate + dual-homed 10Gbps internet pipes, configured for load balancing and high availability so that our customers always remain connected.
- **CAT 6 Copper + Optic Fiber Cable Infrastructure.** Designed to deliver connectivity + internet access to every part of every hall, meeting room and public space.
- **Wired Internet Connectivity.** Dedicated bandwidth for each data connection (1.5Mbps, 3Mbps, 5Mbps, 10Mbps and higher speed configurations as needed).
- **High-Density Wireless Network.** Spanning the entire Campus on all levels and can connect to 130,000 devices concurrently.
- **Neutral Host Distributed Antenna System.** Delivering cell phone connectivity from all major networks.
- **Data Center.** Hosting services for physical and/or virtual servers.
